Book reviews

The *Journal of Economics and Statistics* also publishes book reviews. The editors invite authors for the review of selected books. The length of book reviews is typically between 0,5 and 3 manuscript pages. Book reviews can be submitted as PDF on <http://mc.manuscriptcentral.com/jbnst>

They should also include the following information:

- The heading should include the title of the book, the publisher, year of publication, number of pages, price and ISBN (including the dashes)
- The reviewers' adress

Editing time

The editors of the *Journal of Economics and Statistics* try to provide a fast first feedback to the authors of submitted manuscripts. Nevertheless, screening and reviewing of the submissions requires some time.

In the last 5 years, the median time until the first feedback to the authors amounted to 90 days, while the 90 percent quantile was slightly below five months.

If the authors are invited to resubmit a revised version of their paper, this revision usually should be provided within three months.

Data Archive

The Journal of Economics and Statistics (Jahrbücher für Nationalökonomie und Statistik) maintains a Data Archive in cooperation with ZBW (<http://journaldata.zbw.eu/journals/jbnst>). Authors of accepted papers are expected to deposit a complete set of all data used for their analysis in electronic form. Further details will be provided after acceptance of the paper.
